

STUDENT *origins*

This is a representation of the International Undergraduate students here at Iowa State University.

We believe that it's important to understand where people come from and how it influences people's lives and their beliefs. We hope that this adds another dimension and perspective for the students that are here at ISU.

Note: This does not represent all of the nations in attendance at ISU but only the top 22 nations.

*If China's bar was true to size we would have to extend this page three more feet.
