

# *Misty Bridge*

Drew Rosielle

a misty bridge  
cigarette  
the morning fog  
forgetting it  
the morning drear  
losing it  
a misty bridge

a misty bridge  
she is here  
the naked water  
running free  
the naked river  
dancing free  
a misty bridge

she spoke my name  
she invoked my name  
she blushed the words  
she touched the words

i heard it  
i am it  
i will it

a misty bridge

she stroked my eyes  
she fed my eyes  
she blushed the fog  
she was the fog

i saw it

i smiled it  
i will it

a misty bridge

a forgotten child  
cigarette  
the dawning city  
rushing over  
the dying city  
rushing by  
a forgotten child

a forgotten child  
living appalled  
the living concrete  
conquering all  
the neutered concrete  
cementing all  
a forgotten child

a misty bridge  
losing it  
a misty bridge  
forgetting it

'where is a cradle?'  
'where is the lullaby?'

(the naked river  
she was my name  
the naked river  
she invoke my name.  
i knew it  
i will it  
i am it)
