

courses in forest mapping, forest products, logging and lumbering, and timber preservation.

Before coming to Iowa State, Professor Horning served on the faculty at Pennsylvania State Forest School at Palo Alto.

## Our Athletes

By Frank Kowski, '32

Once again the Iowa State Foresters have loaned their share of athletes to the major sports of Iowa State College. Fifteen men of the department have gained recognition for participation in varsity athletic competition. The athletic ability of these men is above the average, considering that three of them are captains of major sports, and that the others have enviable records in their sports. We are proud of these men and wish to pay them honorable recognition. They are doing their part to add emphasis to the tradition that "IOWA STATE FIGHTS."

LLOYD NAGEL, '32, is one of the Forester's most versatile athletes. Whether on the gridiron or on the cinders, you can depend upon Lloyd to be a point winner. He is captain of the track squad this year and was a member of the championship two-mile team in 1930 and 1931. He is a record-holder for the half-mile in the Big Six Conference and is a good Olympic possibility. He played halfback on the football team in his sophomore and junior years.

DICK HAWK, '33, is our only three sports man. He was a sensational guard on the basketball team for three years, serving as captain in his junior year. This was his last year of competition and he was rated as one of the best guards in the Big Six Conference. He played third base on the baseball team for three years and demonstrated equal ability on the diamond. He also played halfback on the football team in his sophomore and junior years. We are sorry to lose Dick because men of his caliber are hard to find.

BOB HESS, '33, has won so many honors in wrestling in his two years as a member of the squad that it is hard to remember them all. In his high school days he was state champion in his weight. For the last two years he has wrestled in the 175-pound class in varsity competition, and has lost only one conference match. He has won about 95 per cent of his matches with falls. During his sophomore year he was Big Six Conference champion and runner-up in the National Collegiate wrestling competition. This year he was captain of the team and thus far has won the state championship and National Interscholastic championship in the 174-pound class. Bob is now pointing for the coming

Olympics and we are sure he will be in there to represent the United States in his weight. Bob has one more year of competition.

RED GIBSON, '33, is a wrestler of real ability. During his first year, he lost only one match and emerged from the season with the 118-pound championship in the Big Six Conference. What Red lacks in weight he makes up for in aggressiveness and a will to win. During his last match last year he dislocated his knee, but finished the match, obtaining a fall. Red has one more year of competition.

HAL COONS, '32, has been a member of the baseball team for the last three years and does a neat job in the pitcher's box. Last year he was credited with five wins in as many starts. Hal is at his best when the going is hardest.

LYLE CHISHOLM, '34, is finishing his first year of varsity competition on the two-mile team and the track squad with honors. He was a member of the championship two-mile team this year. He is showing up well in the distance events on the track this spring. He has two more years of competition.

WEBSTER INTERMILL, '32, won his letter at guard on the football team. He was a member of the squad for three years and played a good, consistent game.

JACK BEYER, '34, played a whale of a game at center on the football team this year. Jack is a former prep school star and is showing up well as a member of the varsity. We expect some great things of Jack in his next two years of competition.

RUSSEL CHIPMAN, '32, was a pole vaulter on the track squad for three years and wears an "I" sweater as a result. He was a consistent point winner in his event.

HOWARD HARLAN, '34, was a member of the best freshman football team that we have had at this school in years. He played a great game at quarterback and was slated to assume that berth on the varsity this year. However, last summer, while on a trip West, he was seriously injured in an automobile accident and was unable to return to school this year. We are looking for Howard to be back with us next fall and hope to see him playing on the varsity. He is an excellent varsity possibility, judging from his performance in his freshman year.

FRED BATTELL, '33, was another of the Forester's contributions to the two-mile team. As a prep, Fred was a star miler and two-miler. We are expecting Fred to show some real form in the next two years.

FRED GOTTSCHALK, '33, is a pole vaulter on the track team. He will take over Chipman's place on the track squad and we expect him to do a good job of it this year and next.

WALTER GRAVES, '33, was a member of the basketball squad last year, but because of a badly wrenched knee he was unable to compete this season. Walt says he will be out next year and we expect him to show some real skill on the court.

LLOYD ELSTON, '33, has been a member of the track squad for the last three years. He is a good quarter-miler and has been a member of the mile and two-mile relay teams. He is not in school this Spring quarter, but will be back next fall to again don his spikes.

HARROD NEWLAND, '32, managed the tennis team through an equally victorious and financially successful season in 1930.

## The Forestry Club

By Frank Kowski, '32

Once again the Forestry Club has passed through a successful season of outdoor campfires, club meetings and general good times. Judging by the number of men who attended these affairs it can never be said that the foresters failed to support their activities.

The annual Spring Banquet was held April 30 and certainly lived up to its reputation. No one will forget THAT banquet. The Spring Campfire was held two weeks later and more than 75 men attended. At the last meeting of the quarter the new officers for the fall quarter were elected. Harry Hinkley was elected president; George Kline, vice-president; and Arthur Schafer, secretary-treasurer. At the same meeting the AMES FORESTER staff was named and Jacob Jauch was elected to Ag Council.

The opening meeting of the fall quarter was held at Lynn Fuhrer Memorial Lodge in North Woods. The evening was officially recognized as "Paul Bunyan" night and the variety of stories told about Paul would have astounded the old logger himself. Professor Demeritt evidently had an intimate acquaintance with Paul. Two weeks later came the Fall Campfire.

"Moving picture" night was held on October 29 and after the usual business five reels of films were shown. The next meeting two weeks later was "Instrument" night, everybody bringing any instrument they could play. Everyone was surprised to find such talented musicians in the bunch.

On December 10 the club met at the Y. M. C. A. club rooms and Professor Sass of the Botany Department spoke of his connections with forestry. The club turned out January 14 to hear Supervisor Rice of the Payette National Forest in Idaho give an
