## Class of '69

John Beranek became engaged to Mary Lou Von Stoesser.

James Jorgenson was engaged to Pamela Oertel.

Allan Sill became engaged to Judy Brian.

Barbara Losey became engaged to Cecil Miller.

## Class of '68

Jim Robertson was engaged to Susan Bone, State College of Iowa.

Dave Wyatt was married to Jean Swan on December 19, 1965.

A daughter, Gail Kaye, was born to Mr. and Mrs. Thomas Thurber on December 7, 1965.

A son, Brent Joseph, was born to Mr. and Mrs. Dennis Hoeft on March 2, 1966.

## Class of '67

A boy, James Richard, was born to Mr. and Mrs. Richard Thompson on March 30, 1966.

Larry McCormick married Docie Nesbitt on April 11, 1966, at Mt. Pleasant, Iowa.

Robert Welander was honored with being selected as producer of Stars Over Veishea for Veishea 1966.

A daughter, Elizabeth Ann, was born to Mr. and Mrs. James Pearson on March 18, 1966.

Mr. and Mrs. Dean Windom became the parents of Nancy Lynn, born April 1, 1966.

Larry Mahr was honored with membership into Gamma Gamma Greek honorary. Members were chosen for their leadership and service to the Greek System.

A boy, Mark Lewis, was born to Mr. and Mrs. Lewis Boucher on April 14, 1966.

## Pig Roast

For the second straight year of what is hoped to become a tradition, the juniors put on a pig roast for the senior and junior classes on April 30. Four pigs weighing about 125 pounds were roasted for the occasion. Refreshments plus all the trimmings were served, and a very enjoyable time was spent by the 140 class members attending.

## Spring Dance

The annual dance for the College of Veterinary Medicine took place on April 16, 1966. The dance was held in the I.S.U. Memorial Union and approximately 200 couples attended. The theme this year was April Amour. Small orchids were obtained from Hawaii, courtesy of senior Calvin Lum, and were presented to the ladies who attended. Randy Mertens and John Schrock were chairmen of the dance.

## Spring Picnic

The annual Junior A.V.M.A. spring picnic was held May 11, at Brookside Park. The afternoon was spent playing softball, volleyball, and pitching horseshoes. A delicious meal consisting of ham, potato salad, baked beans, ice cream and pop was served. The chairmen of the picnic were juniors Fred Lord and John Thomson.

## Junior Class Trips

On February 27, 1966, 38 members of the Class of 1967, accompanied by Dr's. Jerry Johnson and Paul Kopf, left by chartered bus for an extended seven day tour of three pharmaceutical companies. The group arrived in Indianapolis, Indiana that Sunday evening.

All of Monday, and Tuesday morning was spent touring the facilities of Eli Lilly and Co. in Indianapolis and Greenfield, Indiana. Tuesday afternoon and Wednesday, the class toured Pitman Moore's Pharmaceutical Plant in Indianapolis and their research division at Zionsville, Indiana.

On Thursday morning, the class members left Indianapolis for Lafayette, Indiana where they toured the Veterinary College at Purdue University. After lunch on Thursday they left for Kalamazoo, Michigan and arrived that Thursday evening. On Friday, they toured the facilities of the Upjohn Company and returned to Ames on Saturday.

All the pharmaceutical companies were excellent hosts and treated the class to fine food and free tickets to various theatres.

All three of the companies extended a welcome to future Iowa State Classes. The students felt that they gained a better understanding of the work, problems, time, and expense involved in releasing a product to the public by a pharmaceutical company, and would recommend serious consideration of such a trip by future classes.

On April 22, approximately fifty juniors toured the facilities of Walnut Grove Feed Co. in Atlantic, Iowa. The students were accompanied by their nutrition instructor, Dr. C. F. Foreman. A tour was conducted through the production and research areas. An excellent noon meal was served and everyone agreed that their time was well spent.

## Senior Class Trip

Wednesday, April 13th, members of the senior class were guests of Fort Dodge Laboratories, Fort Dodge, Iowa. The morning was spent touring the research and development area and the biological control area. An excellent dinner was served at a local restaurant followed by a tour of the production area of the plant in the afternoon.

## Homecoming 1966

The annual Iowa State University Veterinary Medicine Alumni Homecoming Luncheon will be held on Saturday, October 15, 1966, in the Veterinary Quadrangle courtyard. The luncheon will begin at 11:00 a.m. and will be followed by the I.S.U. vs. Colorado football game at 1:00 p.m. Tickets for both the game and the luncheon may be purchased by contacting Fred Lord, Homecoming Luncheon Chairman, College of Veterinary Medicine, Iowa State University, Ames, Iowa. Make all checks payable to Jr. A.V.M.A.

I.S.U. mums will be available at the door

Luncheon tickets .....	\$1.50 each
I.S.U. vs. Colorado tickets .....	\$5.00 each
Varsity I Club men game tickets .....	\$1.00 each

Checks for game tickets received after September 15, 1966, will be returned. Tickets will not be mailed. They will be held by the luncheon chairman and may be picked up at the luncheon.

## Phi Zeta

Gamma Chapter of Phi Zeta, honorary society of Veterinary Medicine, held its annual initiation banquet April 16, 1966. Twenty-eight new members were initiated at that time.

Since its initiation, it has been the aim of Phi Zeta to stand for the constant advancement of the veterinary profession, for higher educational requirements, and for high scholarship.

To be eligible for membership students must possess both high personal standards and a high scholastic standing. Seniors must rank in the upper 25 per cent of their class scholastically, and juniors must rank in the upper 10 per cent.

Those initiated were:

### Seniors

George H. Atkins  
Wayne A. Endres  
Robert R. Kraai  
David M. Olson  
Darrel D. Sampson  
Richard J. Schwabe  
Ronald H. Seitsinger  
Dan D. Stoner  
William C. Wilson  
James P. Wylie

### Juniors

Gary R. Bolton  
Thomas A. DeMeyer  
Joseph W. Denhart  
Jon A. Hunziker  
Terry B. Kislingbury  
Arthur L. Lage  
Keith E. Weber

### Graduate Students

Dr. Jess L. Ayers  
Dr. Everett M. Bailey, Jr.  
Dr. Harry R. Cunliffe  
Dr. Howard H. Erickson  
Dr. Nani G. Ghoshal  
Dr. James A. Gourlay  
Dr. Jerry P. Kunesh  
Dr. John F. Munnell  
Dr. Ricardo F. Rosenbusch  
Dr. Richard L. Wood

### Faculty

Dr. Malcolm H. Crump

## Gifts to Student Library

The following books have been purchased and placed in the Veterinary Students' Library with a donation presented by the Iowa State University Alumni Association:

Canine Ophthalmology—Lea and  
Febiger  
Canine Neurology—Hoerlein and  
Saunders  
Pathology of Domestic Animals—Jubb  
and Kennedy (Vol. 1)  
Pathology of Domestic Animals—Jubb  
and Kennedy (Vol. 2)  
Textbook of Medical Physiology—  
Guyton  
Physiology of Digestion in the Ruminant  
—Dougherty

The veterinary student body wishes to thank the Alumni Association for the gift which made the purchase of these books possible.

## Omega Tau Sigma

The Kappa Chapter of Omega Tau Sigma held its annual election of new officers at the end of winter quarter. Those elected were Rex Wilhelm as President, Gary Gienapp as Vice President, Dennis Darnell as Secretary, and Charles Ruehle as Treasurer.

OTS activated seven new members during the first week of spring quarter and five new men were pledged.

In January, OTS received a gift of \$500 from the Eastern Iowa Veterinary Medical Association. This money was set aside for the purpose of preparing the kitchen for a dining service. Tables, chairs, dishes, and silverware have already been purchased in preparation for next fall when the meal service will be started.

The fraternity has now undertaken remodeling the living room as its major project, and expect that it will be ready for use next fall.

In January Mrs. Ethyl Lemly became house mother of OTS. Mrs. Lemly is from Plano, Iowa. She has two sons; Larry, who graduated from I.S.U. Veterinary College in 1959 and Arthur, who received his DVM from Iowa State in 1964. She also has a daughter who graduated from Iowa State. The members of OTS feel fortunate to have Mrs. Lemly as their first housemother.

## Veishea Open House

### Freshman

The Freshman class presented the respiratory system in their display for Veishea Open House 1966. Stations and displays placed emphasis on the nasal cavity, sinuses and olfactory area, pharynx and epiglottis, larynx and vocal cords, lung bronchi and alveoli, comparative anatomy of lungs, pleural cavity, muscles of inspiration and expiration, and the avian lung. Many dissected specimens and drawings were used to help make their display more easily understood by the public.

### Sophomore

The Sophomore class presented zoonoses, diseases transmissible from animals to man, for Veishea Open House 1966. Diseases covered included Salmonellosis, Brucellosis, Rabies, Tuberculosis, and various parasites. The disease incidence for each was noted and the etiologic agent demonstrated by means of photomicrographs, microscopic slides, and unique bacteriologic characteristics. Routes of infection for various hosts were depicted on transmission charts. Special emphasis was placed on the veterinarian's role in treatment and control by demonstrating various diagnostic tests available for the identification of each disease.

### Juniors

Again this year the Juniors gave a complete tour of the Veterinary Clinic to those interested Veishea visitors.

# Graduating Seniors

The College of Veterinary Medicine will confer the degree of Doctor of Veterinary Medicine upon seventy-one graduating seniors on May 28, 1966. Other degrees earned by members of this class include twenty Bachelor of Science degrees, one Bachelor of Arts degree, and one Master of Science degree.

Of the seventy-one seniors, forty-seven are married and have a total of forty-five children.

The average age is twenty-five and one-half and ranges from twenty-three to thirty-three.

There are nine veterans in the class.

Twenty members of the graduating class will enter a mixed practice following graduation. Twenty-four have made plans for their professional future in large animal practice and fifteen of the seniors will be engaged in a small animal practice. There are eleven seniors that will be entering the service. Some will practice until going into the service and others will enter immediately after graduation. Three seniors are planning to do diagnostic laboratory work. One senior is planning to go into research and teaching.

There are fifteen seniors that have not decided which state they will practice in yet. Twenty-six seniors have decided to practice in Iowa. Other seniors will practice in Indiana, California, Wisconsin, Minnesota, New York, Illinois, Hawaii, Massachusetts, Florida, Missouri, Nebraska, Texas, Montana, and South Dakota.
