Homecoming 1952

The courtyard of Veterinary Quadrangle was filled with more than 400 people on October 18, when the Auxiliary of the A.V.M.A. Student Chapter played host to alumni and their families at the Division's Fourth Annual Homecoming Picnic Luncheon.

Perfect weather prevailed for the occasion. After luncheon was served the "old grads" remained at the Quad talking over undergraduate days until almost game time, when they migrated to the Stadium to see the Cyclones bow to Colorado 21 to 12.

Ever since the Class of '49 originated the idea, the Homecoming Celebration of our Division has grown in popularity. The invitations sent to alumni last Spring brought requests for Homecoming reservations from grads located as far away as California and South Carolina. We hope that all who attended this year will be back again next Fall, and a special

invitation goes out to all alumni who were unable to attend this year.

Special thanks go to the ladies of the Student Auxiliary who did such a grand job serving the luncheon, and to the students of the Class of '53 who devoted much time to organizing our most successful Homecoming Celebration to date.
