## Dog Breeds Featured On Radio Program

General Foods Corporation announced that the German Shepherd, the Basset Hound, the Standard Schnauzer and the Gordon Setter will be the 4 breeds featured during the April "Juvenile Jury" radio program.

The "Dog of the Week" feature has become a highlight of this program which comes about midway in each week's broadcast. A representative specimen of the selected breed is brought before the "Jurors" who are asked to identify it. Whether they succeed or not, the emcee not only names the breed but also gives some interesting facts concerning it.
