

# ALUMNI NEWS

This directory of the 1938 graduating class is our effort to reciprocate their loyalty and assistance in the establishment of this publication. It is regretted that up-to-date information is lacking on certain individuals.

•  
**Dr. Clement I. Angstrom** is in the Veterinary Pathology Department of the New York State Veterinary College, Cornell University, Ithaca, New York. Dr. Angstrom's major work is in poultry diseases.

•  
**Dr. Myron S. Arlein** lists his present address as 85 Howard Street, Irvington, New Jersey. However, he received a junior veterinarian's appointment with the B.A.I. to do Bang's Disease testing recently. This appointment was to begin November 1, 1938, and he was detailed to Virginia. Dr. Arlein was temporarily associated with the Angell Memorial Hospital, Boston, Mass., prior to his B.A.I. appointment. He successfully passed the Massachusetts State Board examinations.

•  
**Dr. Gerald Bek** is located at Kiester, Minnesota, and is engaged in general practice. Dr. Bek was married July 17, 1938, to Miss Frances Hewitt, Mondamin, Iowa. Cigars would be entirely in order, Dr. Bek.

•  
**Dr. Wayne Binns** is located at 312 Grove Avenue, Barrington, Illinois. He is engaged in general practice, having passed the Illinois State Board this summer.

•  
**Dr. Arthur C. Brown** is located at Hull, Iowa, having purchased the practice of Dr. A. M. Overbaugh. He is engaged in general practice and enjoys it a great deal. "Art" returned to Ames just recently and was married, after which he

and Mrs. Brown left for Chicago where they planned to honeymoon.

•  
**Dr. Elliot A. Butler** is stationed at Athens, Tennessee, with B.A.I. in Bang's Disease eradication service. Dr. and Mrs. Butler visited the campus recently. It has been his good fortune to meet a number of Iowa State alumni.

•  
**Dr. T. T. Chaddock** is located at Poynette, Wisconsin, where he is employed by the Wisconsin Conservation Department as Pathologist on their experimental fur-bearing animal and game-bird farm. He is in charge of the laboratory. He has recently remodeled the present laboratory and completed an analytical chemistry laboratory for nutritional investigations.

•  
With Dr. Chaddock are two of his classmates, **Dr. Aryle M. McDermid** and **Dr. Robert M. Scott**. Drs. McDermid and Scott are Assistant Pathologists. Their work is both clinical and research in nature.

•  
**Dr. N. David Crandall** is located at the University of Missouri at Columbia. He is with the B.A.I. laboratory and is working in Bang's Disease eradication.

•  
**Dr. J. M. Cullison** is located at Charleston, Missouri, and has a mixed practice. It is presumed that he still has the iodine bottle complex.

•  
**Dr. Charles H. Cunningham** is an assistant professor and Veterinary Inspector at the University of Maryland, College Park. He is associated with the Livestock Sanitary Service Laboratory of the Maryland State Board of Agriculture.

**Dr. John C. deHoll** is located at 1701 16th Avenue, South, Birmingham, Alabama, and is County Milk and Food Inspector with headquarters at Bessemer, Alabama. He sees Dr. Everett T. Anderson, '37, alumnus of the Vet Quad occasionally.

**Dr. James A. Fitch** is living at 2111 Knapp Street, St. Paul, Minnesota. He is a Junior Veterinarian in the B.A.I. Bang's Disease Eradication Service.

**Dr. Jack Gregory** was married to Miss Grace Findlay of St. Louis, Missouri, August 27, 1938. They are at home when practice allows it at 7625 Florissant Road, St. Louis. Dr. Gregory secured his commission as First Lieutenant in the Army Reserve Corps since graduation last June. He is enjoying his work very much and modestly describes his practice as routine small animal work. He appreciates his boss—who happens to be his father, Dr. P. H. Gregory, and considers himself lucky.

**Dr. Luther M. Griffin** has his residence at 603 Sunset Terrace, Amarillo, Texas. He is the City Veterinarian with duties as milk and meat inspector. Dr. Griffin also does some mixed practice as a sideline. He was another unfortunate victim of an automobile accident but is recovering nicely. Dr. Griffin would welcome a visit from his classmates and friends.

**Dr. Chester E. Guthrie** gives Norwalk, Connecticut, as his address where he is doing general practice.

**Dr. George G. Hartle** is engaged in a mixed practice at Owatonna, Minnesota.

**Dr. K. W. Klaus** is stationed at Huston, Minnesota, where he is working at Bang's Disease eradication with the B.A.I. He

was married to Miss Beth Ellen Brown on June 18, 1938.

**Dr. Andrew Koostra** is practicing at Bowling Green, Kentucky. Dr. Koostra was married in August.

**Dr. Maurice C. Larson** is practicing at Norway, Iowa.

**Dr. Frank Linn** is wrestling a weighty general practice. He is associated with Dr. W. Grua, Radcliffe, Iowa. Dr. Linn gets down to Ames for some of the football games.

**Dr. Warren R. Marks** is in general practice with Dr. William Moermond at Everly, Iowa. It is rumored he makes frequent trips to Des Moines and will continue to do so until such time as he takes the attraction to Everly.

**Dr. Raymond Minor** is practicing at Waukon, Iowa. Dr. Minor had the misfortune to be incapacitated by the injury and infection jinx this summer, but is in good condition at present.

**Dr. L. A. Moen** is stationed at Cass Lake, Minnesota. He is with the B.A.I.

**Dr. John Morton** is doing a mixed practice at Webster City, Iowa. He is near enough for us to hear some of the favorable comments.

**Dr. Willis B. McCannon** is located at 212 Walnut Street, Aurora, Illinois. He is associated with Dr. Glen D. Grogan in a general practice.

**Dr. J. Allen McCurdy** went to Texas A. & M. College, College Station, Texas, on an instructorship in Veterinary Anatomy.

**Dr. L. A. Osborn** is situated at Blooming Prairie, Minnesota, where he is associated with Dr. B. A. Zupp in general practice.

**Dr. Nolte J. Perley** has a general practice at Oakland, Iowa. He writes, "I get a great deal of satisfaction out of my work—and so do my creditors." He was married to Miss Helen Humphrey on June 18.

**Dr. John A. Randle** has started a nice dairy practice at West Point, Mississippi. He is also doing some meat inspection.

**Dr. Earl Ritter** is practicing at Sumner, Iowa.

**Dr. Ralph Ruggles** is with the Eastman Small Animal Clinic, Moline, Illinois.

**Dr. Roger C. Scott** is at Knoxville, Iowa, helping his father, Dr. C. J. Scott.

**Dr. Robert Short** is with the Bell Animal Hospital, Pasadena, California. He is doing a mixed practice with emphasis on small animal work.

**Dr. Margaret Sloss** is still in Ames. She is Assistant in Veterinary Pathology and bears the distinction of being the first co-ed to gain a D.V.M. degree at Iowa State.

**Dr. Harry Snelbaker's** address is 211 Knickerbocker Road, North Hackensack, New Jersey. He is in small animal practice.

**Dr. Calvin A. Swick** is at Rapid City, South Dakota. He plans to return to Ames for advanced work in the near future.

**Lt. Burton C. Thompson** is living at 1921 17th Avenue, Columbia, Georgia. Lt. Thompson not only convinced Uncle Sam that he was good, but also won Miss Olive Swanson ('38 Vet Queen at I.S.C.) as his bride.

**Dr. Vale U. Thomson** is practicing at Gravity, Iowa. Dr. Thomson also had the bad luck of being injured in an automobile wreck, but escaped uninjured. He was married to Miss Annabelle Herbert of Atlantic, Iowa, on July 28.

**Dr. Edward Von Glan** is now at 1101 West Lake North, Seattle, Washington, where he is associated with Dr. Ehmer's Small Animal Hospital.

**Lt. Ben J. Ward** was detailed to Barksdale Field, Louisiana. His residence is 680 Jordan Street, Shreveport, Louisiana. He is meat and milk inspector for the C.C.C. in his district and for Barksdale Field.

**Dr. Roy F. Zook** is at 1021 Davis Street Evanston, Illinois. Dr. Zook is working with Dr. C. N. Bramer in the Bramer Animal Hospital. He was forced to take the Pasteur Treatment to prevent rabies.

We regret there is no information on the following men: Dr. Leland S. Hughes, Dr. George Berry, Dr. Robert Miller, Dr. Thomas Sneckkloth, Dr. W. E. Merritt.

---

❖

#### WHAT'S THIS?

Evidence of the decay of our civilization: Wayne Miller telling questionable stories in Clinic without blushing.

---

❖

#### HIDDEN TALENT

Further hidden talents were uncovered in the diagnostic laboratory the other day

when Mayfield identified a cystic ovary in a hen as being the urinary bladder.

---

❖

**ASK HIM**

Dr. Frank Blohm definitely admits that his stomach is capable of quick revolutions when certain occasions present themselves. What these occasions are is somewhat of a mystery but it is rumored that Dr. Benbrook might throw a little light on the matter.

---

**Poultry Production . . . .**

*(Continued from page 25)*

basic training with a knowledge of poultry nutrition and management and as a result thousands of dollars are spent annually for questionable medicaments and remedies. He emphasized that this situation could be changed by the veterinarian taking a more active interest in matters of poultry disease control, and added that it would be profitable, not only for the poul-

try industry, but for the practitioner.

"During the depression," Dr. Neuzil said, "when ordinary large animal practice was at a standstill due to the low value of the animals, high egg prices made the farmer's poultry his most profitable enterprise and the veterinarian was consulted when trouble was even suspected in the flock."

With the return of better livestock prices, poultry practice has declined and in many cases has fallen into the hands of other agencies whose qualifications are in doubt.

Dr. Neuzil told his audience that if they would cooperate with hatcherymen in the community, in many cases the responsibilities of controlling disease in those flocks would be gladly relinquished by the hatchery owner.

Stressing the importance of keeping case reports, the doctor reminded the group of their value as references in as much as the same diseases were apt to crop out from year to year.

*Compliments of*

**NORDON LABORATORIES**

LINCOLN, NEBRASKA
