LPLA-2011-0239.R1 - Mapping of Iron and Zinc Quantitative Trait Loci in Soybean (*Glycine max* (L.) Merr.) for Association to Iron Deficiency Chlorosis Resistance

Dear Dr Gretchen Bryson:

I have attached a copyright consent form, which is a requirement for my dissertation here at Iowa State, and requires a signature granting PROQUEST to publish my dissertation because one of my chapters is now set to be published in your journal. Please let me know if you require additional information. Thanks in advance for your time and consideration in the matter.

Sincerely,  
Mr Keith King

Dear Keith,

Thank you for your email - Gretchen has passed it along to me, as I will be responsible for the production of your paper. Can you please let me know when you expect your dissertation to be published?

Thanks,  
Lauree

Hello Lauree,

I have submitted my dissertation to the graduate college for their view and it takes them a few days to accept it or send back for changes. With that being said, I'd think it will be published by the end of October.

Regards,

Keith

Hi Keith,

Reproducing the paper is fine. Please include a citation that states that the parts of your dissertation you mention below are from the paper to be published in LPLA. The paper is "in press" at the moment and needs to be cited with its full title.

If you have any other questions about your paper, please let me know.

Best wishes,  
Lauree
